

Support the Port PiraTech Robotics Team

Port PiraTech, the Port Washington High School robotics team, relies on the support of business partners for:

- **Mentors:** Experienced leaders are needed in business, manufacturing, design, programming, and project management.
- **Fabrication:** The team can use assistance in fabricating parts for our robot.
- **Tools and materials:** The team uses such items as extruded aluminum, Lexan, and mill bits.
- **Financial contributions:** We estimate we will need \$20,000 for materials, registration fees, tools, and student transportation.

All donations will be greatly appreciated. To showcase your support within the community and among the thousands of *FIRST* supporters attending the regional competition, Port PiraTech offers several recognition opportunities for donations:

Platinum (\$2,000+): Placement of your name and logo on the robot and pit display during competition and on the team t-shirts and website.

Gold (\$1,000+): Placement of your name and logo on the pit display during the competition and on the team t-shirts and website.

Silver (\$500+): Placement of your name and logo on team t-shirts and website

Bronze (\$100 +): Placement of your name and logo on the team website

To lend your support, please complete and return the form below, or contact our coach, Ryan Volke at Ryan.Volke@pwssd.k12.wi.us.

Name: _____ Organization: _____

Address: _____ City: _____ Zip: _____

Phone Number: _____ E-Mail: _____

- Count on my financial support of \$_____ (checks payable to: *PWHS Robotics Team*)
- I have services or materials that may help. Please contact me.
- I am able to lend expertise in a mentor role. Please contact me.
- I need more information. Please contact me to set up a presentation or visit.
- I cannot contribute at this time, but I support the team and would like to stay on the e-mail list for team updates.

Please return this form to Port Washington High School, 427 W. Jackson St., Port Washington, WI 53074, Attention Ryan Volke.

Donors who reach the recognition levels will be contacted for necessary logo materials.
